

TDFC BRAKE

Forms up to 5 ft. (1525mm) widths

- **Wrap duct**
- **L-Duct**
- **Flanges**
- **One man operation for 5 ft duct!**

Made in the USA

Ductformer's TDFC BRAKE forms TDC/TDF and S/D style straight duct and fittings. V notch alignment gauge allows ONE MAN operation for bending 5 ft duct.

Features

- Unique control Safety features to prevent serious injury
- V notch flange alignment gauge for fast bend location
- Performs most operations previously done on a hand brake
- Maintenance free
- Light weight allows for easy forklift shop relocation (no riggers needed in comparison to press brake install)
- Plug into standard power and air (no special electrical shop rewiring costs compared to press brake set-up)

Specifications

Gauge Range..... 18ga.....(1.2MM)
Length..... 84"..... (2133MM)
Working Height..... 38"..... (965MM)
Width..... 30"..... (760MM)
Air.....PSI -80..... (bar 5.5)
Air.....CFM-5.....(141 l/m)
Voltage.....110/220
Electrical.....1 Phase / 50/60Hz
Shipping Weight.....1000 Pounds (455kg)
