TENNSMITH's SK Series shear is built with the quality and high exacting standards that our customers have come to expect from our line of machinery. This model is ideal for customers interested in 10-foot shearing capacity with the affordability of manual operation.

The SK shear is equipped with a standard 2x-R, 0-24 Inch, quick-moving back gauge system, 4-edge high carbon/high chrome blades and precision bearings.

Please consult a TENNSMITH sales representative for more information on the SK model shear.
