Specifications

CAPACITY: 20 GA. MILD STEEL

DIMENSIONS:
31"L x 9"H x 9"W

APPROXIMATE WEIGHT: 70 LBS.

A manually operated tool that forms uniform drive cleat edges on rectangular ductwork in seconds without set-up or adjustment. The upper handle forms the cleat and the lower handle opens the tool for easy removal of the material. Torrington needle bearings are used. A quick-release is built into the lower handle, which has 3-positions available.
