Manufactured to exact tolerance:

Parallelism:

**Longitudinal axis
0.0001"/12"**

**Cross axis
0.0002"/12"**

**Vertical axis
0.0004"/12"**

Squareness:

**X-Y-Z axis
0.0008"/12"**

**Flatness:
0.0002"/12"**

**Spindle runout:
0.00008"**

AUTOMATIC SURFACE GRINDER

"The rapid elevation motor helps me set up my jobs quickly and effortlessly. A real time saver."

"The centralized automatic lubrication system makes my maintenance work a breeze."

"Excellent tech-support. It's great talking to people who really know their stuff."

"Simple intuitive controls keep me on schedule making parts."

"Dependable. Keeps working day in and day out."

AUTO DOWN FEED

Models 1020AHD - 1640AHD

- Elevation motor for quick and easy grinding wheel rapid positioning.
- Surface grinding and Slot/Plunge grinding modes selectable.
- Easy to use direct reading slip ring sets the total amount of material to grind, with no need to calculate the number of passes required.
- A separate dial sets the down feed amount per pass between 0 and 0.001" in 0.0001" increments, which can be changed on the fly to accommodate grinding conditions without affecting the total grinding amount set in the previous step.
- Machine will spark out continuously at the end of the auto grinding cycle.
- This easy and intuitive system provides both control and flexibility to the operator, enabling the work to be done precisely and efficiently.

SPINDLE

Specially designed, dynamically balanced cartridge type spindle is totally enclosed and grease lubricated for the life of the spindle. Two pairs of ABEC-7 super precision angular contact bearings are matched and preloaded to enhance maximum grinding accuracy and reliability.

CONTROL SYSTEM

Simple and logical layout of electrical and electronic components with color and number coded electrical wiring provides reliable operation and easy troubleshooting or service. Control circuit operates on 24v AC for the safety of the operator.

ACCESSORIES

▲ Grinding Wheel and Wheel Flange

▲ Hydraulic System

▲ Wheel Balancing Base

▲ Magnetic Separator & Paper Filter Coolant System

▲ Wheel Balancing Arbor

▲ Table Diamond Dresser Base and Tips

Precision Surface

COLUMN TRAVERSE TYPE

20" x 40" through 34" x 120" capacity

- Dynamically balanced precision spindle with 3 pairs of precision ABEC-7 (P4) angular contact ball bearings for extra heavy cut
- Rapid elevation mode for quicker set-ups
- Selectable surface and slot grinding modes
- Digital counter for setting number of auto downfeed passes and spark out passes (AHD Type)
- Ten choices of downfeed increment settings from 0.0002" to 0.002" per pass (AHD Type)
- Automatic shut off of spindle and hydraulic system after completion of automatic downfeed cycle (AHD Type)
- V and flat longitudinal ways lined with Turcite-B Teflon linings for the smoothest movement and longevity
- Double V crossfeed ways for extra rigidity and accuracy over time
- Column traverse design allows for easy access to table to ease loading and unloading of large work pieces

SD DOWNFEED MODEL FEATURES

- European CE certified electrics
- Proportional valve hydraulic system
- Proximity sensors for table reversal
- Table speed infinitely variable from 3.3'/minute to 83'/minute
- Easy electronic setting of crossfeed reversal positions on the control panel
- Servo motor downfeed system with close loop feedback
- Intuitive setting of total stock removal amount on automatic downfeed cycle with rough and fine feed and sparkout cycles
- Selectable surface and slot grinding modes
- Manual pulse generator Z axis handwheel and digital display of Z axis position allow for quicker setup of repetitive cycles

STANDARD ACCESSORIES

- Grinding wheel and wheel flange
- Wheel flange extractor
- Balancing base and arbor
- Table diamond dresser base and tips
- Leveling bolts and pads
- Toolbox with standard tools

OPTIONAL ACCESSORIES

- Permanent magnetic chuck
- Electric magnetic chuck and control
- Flood coolant system
- Dust-suction coolant system
- Paper filter and magnetic separator coolant unit
- Manual overhead parallel dresser
- Digital readout system
- Work light
