

4024

1. This new blaster incorporates many improvements.
2. It's all welded design is built out of a heavy 14 gauge steel.
3. The sump has a deep angle of repose, so that media will slide back to the bottom easily, making for better flow.
4. The heavy duty gloves are an innovated design, they snap in for a quick change without clamps or rivets.
5. The high quality industrial blast gun delivers maximum volume at an even flow.
6. Standard gun includes a #4 nozzle & air jet, using 12cfm @ 40psi.
7. Optional air jets & nozzles available.
